Forest Eckhardt

Githubs: github.com/ForestEckhardt, github.com/reedsginger

Objective

To participate in a summer internship that will allow me to explore software engineering cultures and work with experienced engineers to build shippable products.

Professional Experience

Software Engineer at Pivotal, New York, NY

June - August 2016

- Worked to ship Pivotal Application Watchdog Team, which is an application that allows a user to track dependencies within other applications deployed on a Cloud Foundry instance.
- Helped to build CLI tool, participated in user research, worked with designer and product manager to improve the user experience of the tooling.
- Also helped to design ways of increasing the confidence of our CVE scans.

Software Engineer at Pivotal, New York, NY

June - August 2017

- Worked on the Cloud Foundry Buildpacks Team worked with three other engineer to continuous deliver eight Buildpacks and Rootfs to open source community.
- Worked to rewrite Ruby Buildpack in Golang.
- Worked to split two buildpacks (Dotnet and Ruby) to make them multi-buildpack compliant.
- Helped prepare buildpack app lifecycle for multi-buildpack usage.
- The complete list of open source repositories I worked on can be found in a list called oss_repos.pdf on my github.com/ForestEckhardt/Resume.

Patents Pending

Vulnerability Notification For Live Applications Application ID: 38727-0153001

Library Scan for Live Applications Application ID: 38727-0154001

Education

School: Rensselaer Polytechnic Institute 110 8th St, Troy, NY 12180

Sept. 2015 - 2019

Major: Computer System Engineer

Minor: Linguistics

Relevant courses: Data Structures, Introduction to Algorithms, Operating Systems, Database

Systems, Advanced Linguistic Topics, Artificial Intelligent Agents

Skills

Proficiency in Ruby, Golang, Python, C, C++, Git, Unix based operating systems

Experience with Cloud Foundry, Rails, SQL(MySQL, Postgres), Continuous Delivery and Integration, Concourse, Google Cloud Platform, Amazon Web Services, Azure, Docker, LaTEX, Siemens NX 3D CAD

Knowledge of Test-Driven Development, Agile & Extreme Programming (XP) Practices, Paired Programming
